SCL55R SIL	SLIVER & RIGHT HAND SIDE VISION	POA

SCL55L BL  
(Left Hand)

### Card system

**Key Cards:** Used to open the digital door lock, up to 200 personal key cards available.  
**Management Key Card:** Used to control and alter the security combination of any key card.

### Burglar and child proof function

Entering the incorrect numerical security code three times or scanning the incorrect key card three times will set off an alarm for 30 seconds and the keypad will shut down for 5 minutes..

### Added security

If your user code consists of 6 digits you are able to enter any code as long as it ends with your 6 digit code.  
For example your set code is 123456. You can unlock the device by pressing "876453836123456" followed by the "\*" key. This will provide extra security if someone is watching while you enter the user code.

### Passage function

The lock has a passage function which allows the lock to be set in a non locking position, ideal for high traffic areas
